STRAITHCO NEWS

A MEETING OF S'CONA CITIZENS

Held Last Night to Discuss By-laws to be Voted on Tomorrow.

The meeting last night of the ratepayers of Strathcona was very small, not more than thirty citizens being in attendance. The object was to discuss the city by-law making grants for the Bailey Soap Works, civic improvements, etc., which are to be submitted to the ratepayers to-morrow.

Mayor Mills was the principal speaker, and explained the grants that were being made. He was followed by Judge Tison and others in the discussion of the financial situation.

The vote to-morrow will not be based on the one man one vote principle. Any ratepayer who is assessed to the amount of \$2,000, has one vote; \$2,000 and up to \$5,000 has two votes; \$5,000 and up to \$8,000, three votes, and \$8,000 and upwards, four votes. The vote will be taken at the city clerk's office.

TENDER FOR OFFICE AWARDED.

The tenders for the erection of an office for the secretary of the board of trade were opened yesterday, and the one submitted by William Deits was accepted at \$755. As soon as permission arrives by wire from R. B. Jamieson, to go ahead, the work will be commenced and the building hurried to completion.

SERIOUS FIRE AVERTED.

What came very nearly being a call for the fire department occurred on Whyte Avenue east last night, about eight o'clock. A passing pedestrian threw his cigar or burning match under the door of Gormley's, a warehouse, next door to the grocery store. In a moment or two there was an untimely blaze, and the man who had been the unintentional cause returned and snuffed the clerks of the store in extinguishing the fire.

KING HAAKON IS BEING FETED

In Paris, Where With His English Queen He is Visiting.

Paris, May 27.—The city of Paris was in holiday attire to-day, in honor of the visit of King Haakon and Queen Maud of Norway, who arrived here on their way to England to visit the queen's parents. All the buildings and hotels, and many private residences flew the Norwegian flag, intertwined with the tricolor of France. A special party, consisting of personal representatives of the president and high military officials, met the royal couple at the Hotel de Ville, and escorted them to their apartments in Paris. They were received in state at the Hotel de Ville, where a banquet was given by President Failloux, the president of the chamber of deputies, the cabinet ministers, the military governor of Paris, Prefect of Police Leprieux and others, while musical bands played the Norwegian national anthem and "The Marseillaise." The king and the queen and their suites, were then driven in open carriages to the minister for foreign affairs on the Quai des Orfres, where the apartments which were occupied by the Canadian and Spanish sovereigns had been prepared for them.

Fire at Arranger.

Arranger, May 27.—The building known as the Tierney block was partially destroyed by fire early this morning. The fire started in R. F. Meig's grocery store, which was completely gutted and spread to F. F. Pagan's tailoring establishment adjoining, and the C. P. R. telegraph building. The second flat of the two latter were both gutted, but the greater part of the contents were removed and undamaged. Loss covered by insurance.

Hamilton Plumbers Complain. Hamilton, May 27.—The strike of the journeymen plumbers was settled today. The men went out about three weeks ago because the bosses refused to increase their wages from 25 to 40 cents per hour. After much dickering the bosses offered to give and the men agreed to accept 32 1/2 cents per hour. The new agreement.

Funeral of Jan MacLaren. Liverpool, May 27.—An immense crowd attended the funeral today of Dr. John Watson (Jan MacLaren), who died at Mount Pleasant May 4. There was an impressive service at the Sefton Park Presbyterian Church, where the embalmed body had rested since its arrival here, May 24, from the United States.

Crop Prospects Brightening. Indian Head, May 27.—Rain is falling tonight, making the prospects for another big crop as bright as in former years. The wheat is up and on some farms it is two inches in height.

LOCALS.

Regular weekly meeting of the city council this evening.

Chief of Police Afterson is confined to his house with a severe cold.

Win. Harrish, the well known croquet player, is laid up with an attack of pleurisy.

Gardens and farmers alike are ready for the rain. Seeding is nearly finished, and showers will be welcome now.

Orlando Bush, who conducts the C. P. R. employment agency, yesterday sent a number of laborers to Selkirk.

Harold Ritchie returned to Strathcona yesterday with his new touring car from Calgary. The new machine is a Franklin, and a beauty.

Clearing and grading on a number of the city streets out towards the suburbs, are in progress, very much to their improvement.

F. H. Sachs is erecting three more dwelling houses on the block just west of Grandin street school. These make eight in all, four facing south and four north.

E. Croft & Sons, contractors, have nearly completed Ben's stone front on block 56, and are making good progress on Dr. Evan Green's new house.

A gang of workmen is engaged near the old round house leading earth on to flat cars, and otherwise preparing for improvements on the track, and for installing the new water supply.

Tenders are pre-empting locations in every direction, these days. It would be hard to say how many will make their homes in tents this summer, but the number will be larger than ever.

Strathcona lodge, S. O. E. B. S., will have a Thursday night, commencing at 8 o'clock. All Englishmen are cordially invited to be present. Thomas Langlois, manager for B.C. for the British Columbia Permanent Loan and Savings Company, was a visitor in the city on Saturday. Mr. Langlois was agreeably surprised at the marked progress that has been made since he was here two years ago. He reports the business of his company as very lively, and is especially well pleased with the Strathcona office as conducted by the company's local agent. He says there is a stability, steady progress and promptness of payment about the Strathcona contracts that gives special satisfaction to the directors—Chronicle.

A NEW INDUSTRY IN EDMONTON

The J. J. McLaughlin Co. Soda Manufacturers Have Opened Factory.

Of Toronto and Edmonton have begun operating the new factory recently established in the city. The premises formerly occupied by the Edmonton Wool and Wool Company, have been completely renovated and altered for the purpose of manufacturing all classes of soft drinks and "Hyperic" water.

The company which is one of the oldest in the East in this business have installed a complete soda water plant for this work. The beverage is all manufactured in the factory, the ordinary river water after a process of distillation and aeration. The water is first pumped through a layer of Mediterranean sand. The steam is filtered through a hot coke chamber and brought into contact with the air to eliminate all foreign gases and odors before it is returned through condensing tubes and stored in an immense tank lined with glass.

The syrups are made from cane sugar filtered into bottles into which are put the various flavoring extracts required for sarsaparilla, ginger ale, cherry sour, etc.

In addition to the manufacture of soft drinks the company put up the distilled and aerated water in half-gallon glass bottles and deliver it on any part of the city. This commodity of aerated distilled water is coming into high favor with medical men as a sanitary and hygienic beverage for their patients.

Insane Man's Act.

Opfermann, N.Y., May 27.—Julius Opfermann, of Baymond, was locked up in the St. Lawrence state insane asylum today, charged with having poured oil through his house and barn, and then setting them on fire, thereby killing a family.

Members of the family escaped by jumping from second-story windows in their night clothes. All his buildings and their contents, including considerable live stock, were burned.

Indian Runner Will Not Lose Sight. Hamilton, May 27.—Anxiety about Tom Longboat losing his eyesight as the result of an accident of which he was the victim yesterday at Caledonia is allayed. It is now thought that last night that the Indian would lose his eyesight, but doctors attending him today say that the danger is now past, and that although he suffers a great deal, his sight will not be seriously affected.

Count Werle Dead.

New York, May 27.—News was received in this city to-day of the death in Rheims, France, of Count Werle, head of the house of Wurze Cluquet, the champagne maker.

From One Day To The Other

Love in May.
 Too young for love?
 Ah, say not so.
 Tell reddening cheeks not to blow!
 Wait not for spring to pass away.
 Love's summer months begin with May.
 Too young for love?
 Ah, say not so.
 Too young?
 Ah, no! no! no!

Too young for love?
 Ah, say not so.
 While daisies bloom and tulips glow
 June soon will come with lengthened day.
 To practice all love learned in May
 Too young for love?
 Ah, say not so.
 Too young?
 Ah, no! no! no! —Holmes.

Sympathy.

Perhaps, if we define the greatest charm of personality it will be found in sympathy that giving out of one self when in communion with others, a lavish laying at their feet of intellect, wit, kindness, and any quality we may happen to possess. If we can do this without being unduly pushing or making ourselves cheap, then poor or rich, we collect for ourselves in a journey through life a mighty army of friends who will feel, should we be suddenly taken from them, that indeed, we are irreplaceable—Lady Troubridge in "Lady's Realm."

Eggs and Kidney.

Slice three sheep's kidneys; toss them in flour, pepper, salt and chopped parsley. Put them into a stew pan with an ounce of butter, and cook briskly on the stove until slightly browned. Then add a few spoonfuls of gravy, boil up, and remove them to the side of the stove to keep hot without boiling. Break four fresh eggs into a steppan, containing two ounces of dissolved butter, season them with salt, pepper and a spoonful of white sauce. Stir them briskly on the stove until they begin to set. Then put the egg on round pieces of buttered toast, and arrange them in a border on a dish, and put the kidney in the center.

"You say he accused you of being untruthful?"

"That's what happened," answered Pate Pete, with much embarrassment.

"And lives to tell the tale?"

"Well, you see, he used long words in such a roundabout way that he was out of town before I had figured out exactly what he meant."—Washington Star.

Little Willie—"Say, pa, why is it that poets usually have long hair?"

Pa—"It costs money to get one's hair cut, son."

The following remarks, taken from a hitherto unpublished letter written by Carlyle in 1871, and which has recently appeared in the Scotsman is of interest:

"I have never doubted," he says, "that the true and noble function of a woman in this world is, and forever will be that of being wife and helpmate to a worthy man, and discharging well the duties that devolve on her in consequence as mother of children and mistress of a household."

"If a woman misses this destiny; or has renounced it, she has every right before God and man to take up what, ever honest employment she can find open to her in the world. Probably there are several or many employments now exclusively in the hands of men for whom women might be more or less fit—printing, tailoring, weaving, clerking, etc. The medicine is intrinsically not unfit for them is proved from the fact that in much more sound and earnest ages than ours, before the profession rose into being, they were virtually the physicians and surgeons as well as the sick nurses, all that the world had."

SOCIAL.

Miss Jean McLeod, of Calgary, is visiting Mrs. Allan Fraser.

Mrs. Fontaine, assistant manager of the Union Bank at Calgary, has arrived in the city to take Mr. Anderson's place. Mr. Anderson will be absent three months.

Miss Slender, of Calgary, gave a very pleasant dance last week in honor of her guests, Miss Upson, of Toronto, and Miss Clarke, formerly of Edmonton.

Mr. and Mrs. Ross King passed through Edmonton last week. They are returning east from a visit to California.

Mrs. MacKenzie is visiting her son and his wife, Mr. and Mrs. Kenneth MacKenzie, at the King Edward hotel.

Mrs. Kimball is entertaining some of her friends at tea this afternoon.

ONLY 158 VOTES WERE POLLED

On 8 Money Bylaws For Expenditure of \$245,000, Yesterday.

The entire six bylaws submitted to the voters of Edmonton yesterday were carried by large majorities, though the votes in each were very small.

When the returns were summed up by Returning Officer Harbottle, it was found that there had been only about 70 voters with 158 votes cast—probably the smallest vote ever taken in the recent history of the city. There are about 2,000 voters in the city qualified to vote on bylaws and about 4,000 votes based on the amount of property held by the ratepayers.

There were only two spoiled ballots the voters to check each marking both for and against each bylaw.

The result of the vote is as follows: Bylaw No. 101—To raise \$20,000 to pay purchase price of new Municipal Powerhouse site. For—144. Against—11.

Bylaw No. 102—To raise \$120,000 to improve and extend the Municipal Electric Lighting and Power System. For—140. Against—14.

Bylaw No. 103—To raise \$25,000 to purchase scavenging equipment and road machinery and to erect the necessary buildings in connection therewith. For—130. Against—16.

Bylaw No. 104—To raise \$41,000 to cover cost of erecting and equipping two new fire halls, and installing a fire alarm system. For—141. Against—10.

Bylaw No. 105—To raise \$27,500 to cover deficit on sale of a large number of debentures, \$14,000 for the cost of certain street improvements, and \$2,000 for city's share of certain local improvements, making a total of \$33,500. For—134. Against—15.

Bylaw No. 107—To raise the sum of \$10,000 to pay the cost of completing and equipping a municipal isolation hospital. For—141. Against—8.

WEATHER.
Maximum 70, minimum 50, barometer 30.72.

LOCALS.

R. E. Gorman has purchased the Alberta automobile business conducted by Wm. O'Hanlon on Howard street. He will continue to run it as a garage and auto business.

Members of Lodge Edmonstone, 804 of England met at Potter & Macdonald's, corner of Jasper and 73rd, 7:30 p.m., to go to Lodge Strathcona smoking concert. A good turnout is expected.

A number of the Morinville officers of the 1st squadron came into the city yesterday to drill with the provincial school, under Captain Macleod and instructor, Doeherty. They included A. G. Chaput, N. Roussillon, A. Bissette and Theo. Robert.

The Victoria Hotel at Morinville, formerly leased by Mr. Jos. Ferras, has been remodelled and is now managed by Mr. Omer Gosselin, the proprietor. Mr. Gosselin has a "big" view of the town regularly and reports that Morinville is in a flourishing condition.

Mr. Barford's monthly pupils' recital will be held Wednesday evening instead of this evening, as the school was arranged. Mrs. T. R. Gange will be the evening vocalist, singing "Les Filles de Cadix." The recital commences at 8:30 o'clock in the All Saints' school room.

A. W. M. Cameron, of the Edmonton Opera House has decided to build a vaudeville theatre with a seating capacity of 400 on the corner of 10th and 10th streets, north of Jack Morton's cafe. The new theatre will be under the management of Mr. Jack O'Toole, formerly of the Bijou, who will have the management of the concern.

The New York Sun refers to Mrs. Pike's company as "the most successful of a six months' engagement in New York with the 'New York Idea.' It says: 'The New York Idea' is so well known by the last company of players that it has the highest, briskest, wittiest, and funniest play in town. Mrs. Pike will be seen in Edmonton July 2."

The Annual Competition of The Edmonton Battalion of the Boys' Brigade will be held on Saturday afternoon on the Exhibition grounds at 3 p.m., instead of Thursday evening as previously announced. Nos. 2 and 4 companies will compete for a silver trophy presented by Major de Bior's headquarters. The boys' brigade will be led by Mr. J. D. Edwards, who will act as judge. The admiral's band are going to the parade, but the boys' brigade will be seen in Edmonton July 2.

Immigrants continue to pour into Edmonton. The big hall on First street is full to overflowing and yesterday for the first time the officials were compelled to turn a few away. Large parties are going to the city today. J. D. McNeill of Bellingham, Wash., has taken a lease of the store on Phillips' floor on First street. Mr. McNeill will open up in the drug and stationary business.

A fine exhibition of cinematograph pictures was given at the Bijou last evening under the operation of Mr. T. A. Tuck. The management are to be congratulated in obtaining the services of Miss Cecilia Borge, a famous young soprano, who is singing in most of the theatres in the city. "The Girl in the Red Dress" is a very fine exhibition of thrilling pictures of the firing of a dwelling-house and the capture of a little girl. All, however, ends happily.

PERSONALS.

Mr. and Mrs. A. E. Inge, of Pine Lake, are guests at the Hotel Windsor.

Alfred G. Clark, of Bitterness, Eng., is a guest at the Windsor today.

H. W. Manning, of Revelstoke, B. C., is on a business trip to the city.

K. Kirkpatrick, of Richardson, B. C., left this morning for Iowa.

Col. Evans and Major A. E. MacDonald, of Winnipeg, are at the hotel.

Miss Bertha Hill, of the Alberta college, returned from Wetaskiwin yesterday.

T. Hauserman, Red Deer, government home inspector, is in the city today.

Mr. and Mrs. A. E. Short, of Pine Lake, Alta., are spending a few days in the city.

John Halstead, of Calgary, district passenger agent of the C. P. R., is in the city today.

R. L. Shaw, the well known live stock dealer of Winnipeg, is in the city on a business trip.

Inspector W. M. Walker, of the R. W. M. P., of Fort Saskatchewan, and Mrs. Walker, are guests at the Alberta hotel.

Miss Margaret Strong, of Alberta, returned from Edmonton in Calgary today, where she was visiting friends.

Harry A. Dunn, manager of the Fairchild Co. Ltd., Calgary, is on a business trip to the city. He is stopping at the Alberta hotel.

Rev. J. Craig Watt, of Michigan City, is in the city, a guest at the King Edward.

H. A. Allan, of Port Elgin, N.B., is in the city yesterday. He is at the Windsor.

J. A. Mutch, of Galt, Ont., representative of the Globe Macdonald Co. is on a business trip to the city.

A. A. Brookbank, Calgary, general manager of the International Harvester Co., is on a business trip to the city.

VIOLATION OF GAME ACT.
Mr. B. Lawton, chief game warden of the province, returned last night from the Lacombe district, where he investigated certain violations of the game act by two commercial travelers who were shooting loons and mud hens.

Mr. Lawton says the ducks are blacker than he has seen them in years. Farmers have finished seeding and the fields are becoming green.

A CITIZEN BEARS REDRESS.
An irate citizen rushed into the police court this forenoon accompanied by another in charge of a policeman. The first named was Delbert at once of preferring a complaint of harassment and abuse of power by the aid of the officer had brought him to the courtroom.

The story was soon disclosed and the heated allegations of the two men. One and another of the other, a well known real estate man, threatened to sue over the loss of a chair, as he claimed the bill presented to him was not due.

The chief of police listened for a few minutes to the war of words, and then requested the injured party to file a complaint before the magistrate. What then the other man was walking down the street together and apparently were endeavoring to reach an amicable solution of their difficulty.

MUST RESPECT BOULEVARDS.
The City Commissioners report that many people are driving over the boulevards at the west end of the city. Some householders also, instead of using the footpaths provided are walking on the grass.

This is regrettable as the city authorities are making every possible effort to improve the streets and boulevards and these people are doing the work of the town of Western Canadian cities from the point of view of civility.

A number of signs bearing the well known inscription "Keep off the grass" are being placed on the boulevards. If the city authorities do not need the authorities will take steps to have them observed.

CATTLE LOSSES MINIMIZED.
H. D. Johnson of the architectural firm of Johnson & Lines, has returned from a three-week's trip to the ranch owned by his son and himself, speaking of the losses sustained by the ranch of the south last winter. Mr. Johnson says they were not at all exaggerated, but rather minimized. Those who contract with the ranch did not suffer so much, but many lost as high as 50 per cent of their herds.

Mr. Johnson said that the ranchers and this is a good time to invest in the business, as prices are good and will be better this fall on account of the scarcity.

TO DRILL FOR COAL.
Charles Bruhn, of Fry & Bruhn, Seattle, Wash., one of the largest meat-packing firms in the Western States, has been in the city a few days. He is here to discuss the possibility of drilling for coal in the city.

Mr. Bruhn and Edwin Allen of this city consider considerable real estate in Edmonton is being sold, including two sections of land at Clover Hill. This property is in the heart of the Clover Hill coal area and they are so pleased with the prospects that a drilling machine has been ordered from Petrolia, Ont., to prospect for coal seams. They have "tagged" a competent man to operate it and will commence work in about ten days.

Mr. Bruhn returned to Seattle yesterday much pleased with his investigation.

SOUTHERNERS INTERESTED.
All indications go to show that the Edmonton Exhibition of 1927 will be the best ever. Interest is being taken in the city by the Southern stockmen and breeders of horses. Secretary Mountfield has received several letters from those men stating their intention to exhibit and a good result will be a carload of their best.

There is a new class in the heavy horse exhibit this year, that of the Suffolk, a type somewhat smaller than the heavy horse, but a powerful one in the old country. This class promises to be well represented, several entries already being in.

FIRE ALARM SYSTEM HERE.
The new Edmonton fire alarm system arrived yesterday and the work of installation will be commenced at once.

The construction and wiring will be in the hands of the firm formerly of the Great West Electric Company and now attached to the city electric department.

The system is manufactured by the General Electric Alarm Telegraph Co. of New York and is claimed to be the best now in existence. There will be a large number of stations, operated by a key. A large point will be placed in the city, from which the alarm is sent to the central station.

FIREMEN HAVE PHYSICAL DRILL.

The firemen are now having regular physical drill under the new gymnasium recently added to the fire department. Yesterday the men had their turnout between three and four o'clock.

Chief Davidson is systematizing the work of the department and placing it in much better shape than it ever was before. Yesterday afternoon while the men were at drill the alarm rang for a fire on First street and it is stated by those present at the time that the horses and trucks were on the street inside of half a mile from the time the message was turned in by telephone.

The fire brigade were called out at 3:30 yesterday afternoon for a fire on the corner of First street between Athabasca and Peace. The blaze which originated from a defective door was underneath the floor but was extinguished by the chemical after considerable cutting. The building is owned by Robt. Los and occupied by several Chinamen. The damage was small.

LOOKING FOR BUSINESS.
J. Halstead, Western Freight agent of the C.P.R., was in the city yesterday accompanied by A. H. Sperry, assistant general freight agent of the Spokane International Railway, Spokane, and A. MacQuarrie, agent of the Oregon Railway and Navigation Co., Vancouver.

Mr. Halstead says his present trip has no special significance but that the traffic on the Western lines is exceptionally larger and the prospects for a good summer's business are good.

A new insurance agency has been opened in the Potter, Macdonald building under the name of Thorpe, Patrick and Pate. These two young men are just new arrivals from Toronto.

The ladies of Queen's avenue Presbyterian church are holding a bazaar in the basement of the church this afternoon. The ladies will be supper from 6 until 8 o'clock. The sale is for the purpose of putting in new seats in the church.

A grand figure dress carnival and roller hockey match will be held in the Thistle rink on Wednesday evening.

PROGRESS ON STREET CAR.
Bilbottle and Contracting, Limited, are making good progress on the street car line work. They have laid the force of from 100 to 200 men at work a little over a week and have Jasper from Fourth to Ninth ready for the concrete and over one block of the first concrete bed laid. The construction of the car line complete entails a number of interesting processes.

After the centre of the street to a width of 16 feet has been graded to the proper level, four bevelled dike, about eight inches deep, are dug the length of the grading. These ditches are directly under where the rails will be laid. Cross ditches are also dug under the iron ties which support the rails.

A bed of over six inches of concrete is then laid on the entire grade, making over a foot of solid concrete under the rails or where the weight will be. After the rails are in position the street is paved level with the top either with concrete or bitulithite. The company has no contract for the building of the street railway, but are merely undertaking the work to help the city out and get at their paving and street cleaning expeditions.

They have an expensive plant lying idle, and will commence paving operations as soon as the first portion of the railway is complete.

To the casual observer it would appear that the rails are perfectly level, but this is not the fact. The obvious reason the inside rail is one quarter of an inch higher than the outer one.

NEW 2nd STREET BUILDING.
Excavations will be commenced the first of next week for H. D. Johnson's new building on Second street, just north of the Edmonton Hotel & Mattress Co.'s factory. It will be three feet, three stories and built of brick with stone trimmings. Plans are nearly ready and the work will be rushed to completion. Mr. Johnson already has a tenant for the whole building which will probably consist of a big store on the first floor and offices and rooms above.

SPRING BACKWARD EVERYWHERE.
Mr. John Howey of the Bulletin staff, who has been parliamentary secretary to the Bulletin the session at Ottawa, returned to the city last night, accompanied by Mrs. Howey.

During the time since the session he and Mrs. Howey have been visiting Ontario points. Mr. Howey states that the spring in Ontario has been very backward even in the southwestern peninsula of the Ontario province, which is known as the Garden of Ontario.

Some of the peach and plum trees were just beginning to come out in bud and bloom. The apple trees were just beginning to come out in bud and bloom. The same conditions prevailed through Michigan and Indiana. Leaving Chicago and along the Mississippi the trees were just beginning to come out in bud and bloom. From St. Paul and Minneapolis to Winnipeg the trees were just beginning to come out in bud and bloom.

Mr. Howey, the "first green" we saw from Illinois to Edmonton was at Redwood, five miles east of Edmonton on the C. N. R.

Mr. Howey is making general all along the C. N. R. and in Southern Manitoba. The Manitoba government have issued a circular letter to the farmers of the province advising them to get their wheat up to June 1st as the growing season really includes June and July.

Mr. Fred Cromwell leaves this afternoon for New York where he will attend a national convention of the Mystic Shrine.

D. B. Harris, acting general manager of the C.N.R. and party are in the city today. They are here to see the coal mines from which the C.N.R. secures its coal supply.

The Prince Rupert Company open a week's engagement in the Edmonton Opera House this evening playing for the opening bill "Bouquet of the West." The company played here last December and were well received and patronized.

OLD OTTAWAN'S ASSOCIATION.
The Old Ottawans' Association will hold a meeting on Thursday evening in the Courbiel Chamber, if possible to obtain it. The secretary will have full information in reference to the grand summer carnival to be held in Ottawa from July 25th to August 9th.

The association has now 100 members. The secretary is sending out inquiries all over the province to interest all old Ottawans in the proposed excursion to the Dominion capital during the week of the Summer Carnival.

SITE DECIDED FOR ALL TIME.
With regard to the statement that the delay of the Rutherford Government in getting under way the construction of the parliament buildings had a serious aspect, since the personnel of the government was to change in a few years and Edmonton might lose the capital site, Mr. John Stocks, Deputy Minister of Public Works, said today, at the opening of the site and location of the Provincial Parliament buildings was settled for all time. The buildings will be in Edmonton, the capital city of the province and changes of government or the personnel of this Government would in no way affect the matter.

With respect to Mr. Cushing's statement that today, at the opening of the corner stone of the Normal school, Mr. Stocks said the statement had evidently been misunderstood as the Minister of Public Works was merely congratulating the citizens of Calgary upon the fact that they were the first to celebrate the founding of one of the most important educational institutions in the province.

RIGHTS

Now offered for The First Time

A beautiful Residential Sub-Division within the City Limits of Strathcona and less than one mile from the Edmonton Post Office.

RIVER VIEW LOTS UNEQUALLED IN THE PROVINCE OF ALBERTA.

Choice homesites easy of access to either city. The construction of the Street Railway will bring them within 15 minutes of the business centres.

Beautiful View Lots

\$1000 each

One Third Cash; Balance 6 and 12.

Inside Lots \$125 to \$350

SEEK YOURSELF A HOME

RIVER HEIGHTS

The beautiful residential sub-division of River Heights is now being offered for sale for the first time at prices and terms which bring home sites within the reach of all.

River Heights takes in the south-easterly 50 acres of river lot 19, all within the city limits of Strathcona, and 50 acres of river lot 21, adjoining the boundary line of the city. A circle with the Alberta hotel for a centre and a radius of one mile cuts the property in the middle.

The inauguration of a street car service will bring all this property within ten minutes' ride of the busiest part of either city. The proximity which Premier Rutherford recently gave Strathcona for a park is right at the south end of the River Heights sub-division.

As a homesite nothing better has ever been offered. The prices are not inflated. They are placed low for a quick sale, but only a limited number of lots are to be sold and these are to be placed, as far as possible in the hands of actual home builders.

Municipal improvements, such as water works, light, sidewalks, etc., will all be forthcoming within a year or so on account of this fact that home building is to be encouraged. The lots which are not sold on the first sale will be kept off the market until these improvements are secured and the owners will do everything in their power, by petition and a willingness to bear a fair share of the rates involved, to see that these improvements are secured at once.

This is not a speculation, but a proposition. It is right in town. If you care to see the property come to the office and take a drive over it with us. It will only take a few minutes of your time and may make you hundreds of dollars.

There are 11 view lots in R.H. 19 to be sold. These lots are 50 x 150. They overlook the City of Edmonton, the parliament buildings and have a clear view of five miles of the valley of the Saskatchewan River. No finer lots were ever offered at any price. These eleven are being sold at \$1,000 each, one-third cash, balance 6 and 12 at 7 per cent.

In block 3 of R.H. 19 there are a limited number to be sold at from \$200 to \$350; terms the same. In blocks 4, 5, 2, and 1 the lots that are being offered will go at \$250 inside lots and \$275 for corners. Size of lots, 50 x 150 feet to a 20 foot lane. In sub-division of River lot 21, lots are from \$125.00 to \$150.00 for inside lots and \$150.00 extra for corners; size of lots, 12 chain by 2 chains.

There are 11 View Lots in R.H. 19 which will go at \$1,000 each, one-third cash, six and twelve months, seven per cent. interest.

W. J. GRAVES' OPINION ON THE GAS QUESTION.

To the Editor of the Bulletin—

Dear Sir—I notice that on the third of June the citizens will be called upon to vote on the gas proposition. May I be allowed space for a few words regarding the same?

I followed the course of the agreement through the various stages of interest, not simply because the Council seemed to find difficulty in dealing with them, but because of the great importance to the welfare of the citizens of this city.

Gas is one of the most useful of all the commodities and its benefits are felt not only by those who require it for lighting purposes, but also by the small manufacturer who can use it more cheaply and more easily than gasoline or other fuel for manufacturing purposes, and, above all, by the householder, who, when once he knows the convenience of gas range for summer cooking, will not dispense with it on any account.

The advantages accruing to the city from the use of a commodity in such general demand and of such general utility are not confined to the classes I have mentioned, only, but the city as a whole, and, for one, as a business man, feel that a portion of this benefit would be mine, and as a consequence that we should have this useful commodity introduced to the citizens as soon as possible.

The greatest benefit would, of course, come from natural gas, as its production would increase the value of the land in Edmonton to not know whether or not we possess natural gas, and have failed. Because of this failure, I believe that a franchise should be granted to an Artificial Gas Company, who will sell the gas as soon as the plant can be built.

In conversation with the International Lighting Company of Cleveland have favored the proposal of the Company, their manner of doing business. They have offered to erect a gas plant in the city at an estimated cost of \$300,000. They are not asking us for a free franchise, as we were asked by another manufacturing concern. They have not asked us for a bonus. They

have not even asked for exemption from taxation as most every manufacturing concern does; but they ask for the privilege of doing business on equal footing with myself and all other business men, and I am strongly in favor of any such doing business in Edmonton.

The Artificial Company's manner of doing business is so generous and so different from other companies that if in the face of such a generous offer to do business we turn them away, we forever put ourselves on record as being opposed to the entry into our city of manufacturing concern.

This, of course, is far beyond what we wish outsiders to understand, and it, therefore, behooves us to grant a franchise to this company on the terms agreed to with the City Council as contained in the proposed by-law, and when we compare our position with that of the city of Calgary, which, in its great endeavor to obtain prominence and rapid growth, is offering large inducements to manufacturers, and when we compare also the price of the gas to be distributed here with that which is paid by the citizens of Calgary and see that we will have to pay less, we ought really to congratulate ourselves on the opportunities, but not refuse to take advantage of them.

From every point of view I believe the city will reap a great benefit from the granting of the Artificial Gas franchise to be voted upon on June 3, and certainly from the point of view of the business man, a share of the added prosperity will be ours.

Yours Truly,
W. J. GRAVES.
Edmonton, May 23rd, 1907.

GREATEST BARRIERS TO HOME BUILDING

To the Editor of the Bulletin—

Dear Sir—Referring to Mr. Haggis' condensed historical sketch of Ireland's wrongs during the past century, to my mind the two greatest barriers to the progress of the Irish people have been landlordism and priest rule.

An intelligent Protestant in Ireland will tell you that he would gladly vote for Home Rule, or any other measure which would place the dominion of the people in the hands of the people. The chief opponents of Home Rule in Ireland, outside the landlord class themselves, have no love for landlordism as such, and will rejoice when the last vestige of the feudal system has been entirely blotted out.

As an Irishman and one who has travelled the country a good many times both on business pleasure, I shall be glad to see the present bill of Mr. Russell's carried into law. One clause of that bill, viz., Irish control of education, can only be successful if consummated by putting the education of the country on a purely nonsectarian basis. In certain districts the people are very poor and illiterate yet the country abounds in churches and other monastic institutions, the support of which must be

Charles Parnell was the greatest leader the Irish ever had, but the priests, jealous of his power, hounded him out of business. I was in the city of Cork when he made his triumphal entry after the divorce proceedings and I was in Dublin at his funeral, and was witness to the unbounded devotion of the people, but that power killed him which made it "ex cathedra" to refuse the dying sacraments of the church to a Parnellite.

J.C.

WHAT PECULIAR INSTINCT? What peculiar instinct it is that inspires a certain type of American settler to chuckle and grin at the sight of a Canadian national holiday.

Mr. McLeod and Mr. Jesse Radcliffe spent Sunday at the home of Mr. and Mrs. Ingles.

Mr. John Ingles, who has just completed his new home in Stony Plain, will move tomorrow.

Mr. Andrew Katchersky was visiting his home in Rosenthal, S. D., last week.

The Blueberry school had a narrow escape from fire on Saturday last. The fire, no doubt, was set by some person traveling along the road, but knowing the schoolhouse was near by. Having no firebrake around it, it was indeed in much danger. Mr. Enders has the contract for playing the fire school, but as the frost was not out of the ground on the north side of the schoolhouse, he could not fulfill his contract. The fire was discovered by Fred Williams, who lives near the schoolhouse. He saw the smoke and saw the flames and ran to the schoolhouse. Mr. Williams got the fire out before any help came. He was the first person to come on the scene as Henry Enders and both men worked bravely and soon put it out. Prairie fires are frequent and several have been started on the Blueberry school. These fires spread quickly now for the timbers and grass are exceedingly dry and the wind is blowing from the south.

Blueberry. Next Friday, May 24th, being Victoria day, the people out here intend making it a holiday. There will be a football game in the afternoon and a dance will be given in the evening by Mr. Henry Hartigan. Tickets will be sold for \$1.00. Supper will be served at the Royal Hotel.

Mr. Peter Heron.

Miss Sarah Umbeck, who is working in Edmonton, was visiting her parents at Stony Plain last week.

Jacob Miller's new threshing outfit has recently arrived in Stony Plain. The machine is worked by a traction engine and the separator is a self-feeder with blow attached.

Miss Wade and Miss Ingles will visit Mr. Ingles' parents at Stony Plain on Friday, May 24th, and both intend to spend a pleasant holiday.

Mr. McLeod and Mr. Jesse Radcliffe spent Sunday at the home of Mr. and Mrs. Ingles.

Mr. John Ingles, who has just completed his new home in Stony Plain, will move tomorrow.

Mr. Andrew Katchersky was visiting his home in Rosenthal, S. D., last week.

Governor Dying.
Fort Smith, Ark., May 23—Governor John B. Fulle, who on Saturday night suffered an attack of heart failure, is believed to be dying.

With the Farmers

FARM NOTES.

Buy a good cow any time you get her at a reasonable price, but buy a bull every time regardless of the price.

The spring is the hardest time on the horse, for this is the time of hard work of the year coming after a season of ease and rest.

Do not neglect the little pigs. They will bring a big cheque by and by. Do not crowd the young with strong ration and they won't break in the feed.

Do not forget the dairy cows in the rush of spring work. A good dairy cow is a money-maker these days.

We're paying 40 cents a pound for butter in Edmonton.

Bovine trouble is the cause of many deaths among little spring chicks, says Successful Farming. This often may be avoided by keeping a dish of bran constantly before them or by giving water in which potatoes have been boiled.

Planting whole potatoes permits too many sprouts to grow close together, which deteriorates them and produces small weak potatoes more liable to blight.

See that the young chickens get plenty of fresh, pure water and plenty of succulent food. There's money in Alberta chickens.

Lady Bug to Fight Green Bug.

It has been discovered in Kansas that the lady bug is a destroyer of the green bug, which latter is causing great enormous damage to the wheat crop in Kansas and Oklahoma. As a result of this discovery, entomologists of Kansas is making a collection of lady bugs with the help of university students, and these are being shipped free to farmers at any time where the green bug is causing damage.

Keep the young calves growing by giving them a little straw or ground oats in addition to the milk.

By all means place the breeding sows and young pigs where they can get plenty of exercise.

The well-developed brood sow produces the best results. Do not breed too young.

The get of a well-ventilated stallion is worth more than any other unknown one.

Use many cows have to spend the month of May in getting into shape to do good work in June and then the farmer wonders why dairying does not pay.

The Provincial Idea of the Live-Stock Sales.

The question has arisen, and has been debated in association meetings as recorded in those columns, to what extent provincialization should be given to the holding of live-stock sales. The tendency at present in the Western provinces seems to be to put up the hands against the stockmen of neighboring provinces, for which there may have been at one time some justification, but which we believe the broader-minded will agree is neither necessary nor advisable.

One peculiar feature is that while the live-stock sales are against sellers, such is not the case against buyers. The principle by which governments are led to contribute grants to provincial live-stock sales is that by so doing they aid the small farmer in his search for purebred stock. It will be admitted, we breed stock. It will be admitted, we sell stock. It will be admitted, we buy stock. It will be admitted, we are the brightest in the Canadian agriculture being found in the ranks of the live-stock men. Unfortunately, the idea has gotten abroad that governments, by extending financial aid to such sales, design to aid the breeders of live stock, unless their cull stock. We believe that such is a mistaken idea and should be speedily corrected. If a man holds a private sale, he knows well the penalty of putting inferior stock before the purchaser and we see no good reason for the use of government funds to aid the carrying out of an idea economically unsound, and in addition, a detriment to the cattle trade in the end. The fear that the removal of inter-provincial restrictions would result in the damping of inferior stock on the market is not well founded.

and may easily be avoided, but it looks bad, is inconsistent and weakens the confidence of farmers and dealers for a lower rate than they would erect a stone wall against the live-stock of another province. This type of selfish protectionism and stock regulations is unworthy of the industry and will be considered as swept away once the breeders consider the matter thoroughly. Competition among live-stock breeders is absolutely necessary if the standards are to be correct and it is certain to be of great aid to Argentina has made a practice of buying the best cattle and today bids fair to distance all competitors in the race for supremacy in the meat trade, and there should be no hindrance placed in the way of Western breeders of commercial cattle securing the much-needed improved blood—Farmers' Advocate.

Wheat Screenings and the Meat Trade

Three circumstances in connection with the meat and grain trade direct attention to a channel in which Western farmers might develop business.

These are: Some 40,000 million carcasses from Australia are being shipped this spring at Vancouver for the Canadian trade; at Port Arthur some 10,000 sheep raised upon the Canadian range have been fed all winter and are being sent to Eastern and Western cities; and the dockage on some 30,000,000 bushels of wheat shipped to take ports has averaged some three per cent, or 300,000 bushels.

When one begins to enquire into the significance of these circumstances he will find some suggestions for a possible future policy, although it will go into feeding is problematical.

Some say he will never see that the hope for the future of the farms and the meat trade is in the hands of the next generation, but we scarcely like to think that it is so far distant.

The use of the Port Arthur sheep feeders has been cited, but they are not the only ones. It is possible to make a profitable combination of screenings and sheep. At several of the smaller mills throughout Manitoba and Saskatchewan sheep are fed the screenings and the millers are allowed for the purpose in transit. At some mills where feed are fed on the screenings and the millers are allowed for the purpose in transit. At some mills where feed are fed on the screenings and the millers are allowed for the purpose in transit.

With respect to these advancing prices in the local markets it is to be noted that the large export dealers are quoted as being only marginally above the market. It would seem that the public considerable more confidence in the cattle business and stimulate production of a better class of stock, delivery would govern the high prices for the best and discriminate in their buying. It is to be noted that the regular channels of the trade is what has been needed for some time in the farming districts to encourage feeding, and it is to be hoped that the activity of local buyers and of buyers for construction gangs will have the effect desired, namely, to supply competitive buyers for the western cattle market. The day is not far distant however, when the western cattle market will be too big to be monopolized by individuals when the province will be able to establish a dead meat trade that will command a constant place in the western market.

VERGIVILLE.

The Vergiville Citizens' Band ministered to the local market in a decided success. The hall, which is a spacious dance hall, was the scene of the evening. The band, consisting of 15 members, gave a most enjoyable performance. The evening was a success and the band was well received.

COMMISSION ON COAL SITUATION

Opens in Lethbridge. Miners to Give Evidence as to Conditions.

Lethbridge, Alta., May 25.—The preliminary meeting of the Alberta coal commission is being held in the court house this morning. Justice Ritten is presiding. William Hanson, president of the Coleman Miners' union, and Lewis Blockett, Banff-based, are representing the miners and operators. Don W. H. Cushing, and whose department the investigation is being held, is also present. Plans for the holding of meetings and taking of evidence are being made. The first meeting will likely take place here and the next probably at Taber.

The commission will be composed of representatives of the Alberta coal industry. It is to be hoped that the activity of local buyers and of buyers for construction gangs will have the effect desired, namely, to supply competitive buyers for the western cattle market.

The Proper Light for Country Houses

Acetylene does away with all the bother and inconvenience that go with kerosene lamps.

There's the dependable smell of oil, the everlasting cleaning of lamp chimneys, trimming the wicks, filling the lamps, etc.

Then there's the constant danger of your lamp exploding.

Wherever you want light you've got to take the lamp with you.

You never know when you may trip over something and fall, while carrying the lamp.

And what will the consequence be?—probably an explosion, followed by fire.

A fire in the country means a total loss of property, apart from the risk of being burned alive.

If you have children around where there are lamps, you've got to be constantly on the watch to see that the lamp isn't overturned.

But why continue to run these risks when you can have your home lighted up as absolutely safe light—acetylene?

It costs very little more than kerosene.

To produce acetylene of the greatest lighting power, you need

1. Calcium Carbide—the best and most satisfactory carbide made.

2. You don't want to know more about carbide, don't you? We shall be pleased to give you information if you send us your address.

YOUNG MEN OF Y.M.C.A.

OPEN THEIR CAMPAIGN

To Raise \$20,000 For New Building by June 1st.
Lieut.-Governor Bulyea Speaks Encouragingly to the Workers—\$2,050 Was Subscribed on Monday.

YESTERDAY'S RESULTS.

The following is the amount subscribed for the Y.M.C.A. fund on Monday, collected by the business men's and young men's committees:

Business men	\$1,800
Young men	250
Total	\$2,050

Almost half a hundred young men interested in the work of the Young Men's Christian Association, met at the Sugar Bowl Restaurant last evening on the invitation of Secretary Chadwick to partake of a luncheon and discuss the work of the association in the city.

The Lieutenant Governor presided and after the request had been enjoyed delivered an address on the proposed campaign to be conducted this week to raise the additional \$20,000 needed to pay off the entire indebtedness and leave the new building completely unencumbered.

The Lieutenant Governor in opening stated that the earnest friends he saw around him augured well for the success of the work. No institution was doing better work for the young men of the present day. The churches and the Salvation Army all had their spheres but it was to the Y.M.C.A. more than any other that he was turned to keep the youth of the country from the snare that beset life more especially in the west. In the East conditions were different. There were the home influences and young men were protected, but to this western land they frequently

came without friends and there was greater necessity for good influences than in any other place. The Governor referred to the time, twenty-five years ago, when he arrived in Winnipeg, another pleasure it was to him to identify himself with the small association then being started in that city.

The association was a necessity here. Large employers of labor would say that nothing benefited the men more than the influence of this organization, and the fact that they gave their money in large amounts as well as proof that they meant what they said.

To establish an institution of this kind necessitated the expenditure of considerable money but we couldn't relegate it to a secondary place. The business men had already done well and this meeting was to interest the young men themselves. The association building in a city like this could not be built a part at a time but must be fully established at the very start. A building must be erected in the city and there was no better investment for a young man than to put some of his money in the Y.M.C.A. The whole country would reap the benefit and though he might have other city the influence of the movement would be felt there.

The speaker referred to a remark that impressed him very much made by a gentleman the other day at Cal-

tion work and was glad to see that one of Alberta's leading citizens, Lieut.-Gov. Bulyea, was in such strong sympathy with the work for clean, wholesome, healthy citizenship.

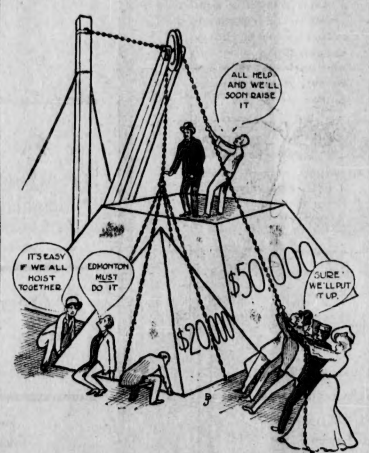

"This speaks well," he said, "for the future of Canada's youth. We here are not alone in the good work however. Last year one new Y. M. C. A. building was opened every five days and \$42,000,000 have been invested by the business men of this continent in Y.M.C.A. work. Edmonton is thus in line with the movement that is sweeping the continent for the betterment of men. Half the battle is to feel sure we can do the work—then go out with a definite purpose, start at once, and there is no fear of the result. He instance a case of a young girl in Calcutta, India, who had donated her credit for the association work and another instance of a man who had lost his girl in Calcutta owing to sickness but had donated 50 cents and said he hoped soon to be able to give more. With a spirit like this it shouldn't be hard to get money from the young men of the city. Let us do what we can ourselves and then go on and ask others, taking as our motto 'What we have we'll hold and what we need we'll get.'"

The young men present then arranged themselves into committees and discussed plans for the canvass of the city which they will make during the present week.

Attended May Social Events.

New York, May 27.—The Duke of Abruzzi, cousin of King Victor Emmanuel of Italy, commanding the Italian squadron sent to the Jamestown Exposition, gave New York a special opportunity today to witness the titanic energy, which nearly carried him to the North Pole and helped him to penetrate unexplored Africa, on a visit to Mayor McClellan at the City Hall, and a luncheon and reception given by Major-General and Mrs. Frederick L. Grant, at Governor's Island this afternoon, the duke closed his visit to the city.

As the guest of honor at a dinner to-night given by Count Masarina, the Italian consul-general, at the Waldorf Astoria.
